

Firefox muestra fuentes ilegibles al imprimir

Para solucionar el problema(*) en Debian GNU/Linux, basta con instalar el paquete ttf-liberation.

```
apt-get install ttf-liberation
```

```
apt-cache show ttf-liberation
```

```
[...]
```

```
Description: Free fonts with the same metrics as Times, Arial and Courier
```

```
A set of serif, sans-serif and monospaced fonts from Red Hat with exactly the same metrics as the (non-free) Microsoft Times, Arial and Courier fonts, which implies those fonts can serve as a drop-in
```

```
replacement. The font family is named Liberation.
